

Wedding Content Creation 📷✨

Your wedding day goes by in a blur of happy tears, laughter, and unforgettable moments. I'll focus on capturing the full feeling of your day, from the behind-the-scenes moments to the tiny details, and all the magic in between. **All** packages include both photo & video content capture with a quick turnaround, so you can start reliving your day almost as soon as it's over.

A little note: Content creation is designed to complement, *not* replace, traditional photography & videography. While this service focuses on capturing candid moments and shareable photo & video content, it is not intended to take the place of a professional photographer or videographer. *Raw footage is not included in any package.* If you would like access to raw, unedited content, it can be added on for an additional fee and must be requested and paid for in advance.
